Is Premier Negotiating With C.N.R. ?

Is the premier negotiating with the Canadian Northern rail-way for the construction of a line north-east, as an alternative pro-

way for the construction of a nine north-east, as an alternative pro-position for the elimination of the Alberta and Great Waterways?

This might be indicated by the fact that D. D. Mann, vice-president of the C.N.R. held an hour's conference with the premier this morning. Neither would give out a statement when the con-ference ended. Mr. Mann practically admitted in an interview last evening, that the C.N.R. would like to build into the north country, but had a good deal of work on hand at present.

Many members blieve that the premier has some alternative proposition to offer. It is stated that the C.N.R. would build a line to McMurray, if they could secure bonding powers to the extent of \$25,000 or more per mile. This, however, was not confirmed by Mr. Manı last night.

IN TIME OF PEACE

Such Was Advice of Dr. Parkin

POINTS TO AUSTRALIA

Navy is Needed by Canada, De-

That Canada, as a loyal colony of the Empire should "prepare in time f peace for war" was the theme dwelt pon by Dr. Parkin, trustee for the Godes scholarship endowment fund, a his address before the Canadian lab at the King Edward Hotel yes-erday.

Club at the King Edward Hotel yes-terbay, of preface to a remarkably interesting appeal for a larger display of militarism in the Dominion, Dr. Parkin dwelt at some length upon what Britain has accomplished and what the colonies owe to the mother country. He had been impressed, during the time which he has resided, in England, to the remarkable influ-mentation of the control of the model of the colonies of the colonies phase; that it was not what Cana-dians were thinking abeat, but what they should be thinking about, was the key-note of a very important prob-lem.

lem. England, less than one half the size of Alberta, opariante within its confines a hody who virtually ruled one fines a hody who virtually ruled one fines a hody who virtually ruled one ish Justice and fair play to civilized ish Justice and fair play to civilized ish Justice and fair play to civilized an uncivilized nations alike. How the little ishand kingdom had been able to that the should assume their share of the burden. Encland has been stending out some 300,000 colonists yearly to Canada and Aussime their share of the burden. Encland has been stending out some 300,000 colonists yearly to Canada and Aussime their share of the burden. Encland has been stending out some 300,000 colonists yearly to Canada and Aussime their share of the burden. Encland more important.

The speaker then proceeded to show what would happen to Australia if it were an independent nation without were an independent nation without defend itself. Menaced by China on the one hand and by Janan, raniely becoming one of the world powers, and daily seeking for new territors—in which to settle the overflow of its into the standard of the standard in the sta

"Capitol" Beer vs. "Budweiser"

We beg to inform our many patrons that we are using a tem Annot label for our "Capitol" Beer as an injunction has been granted by the Courts restraining us from using our original "Capitol" label pending our law suit with the Anheuser-Busch Brewing Association, of St. Louis, Mo. The quality of "Capitol" however will be just the same, or better if we can make it so; and judging from the demand we are sure that our patrons know from experience that it is the BEER and not the label that has made "Capitol" so widely popular.

THE QUESTION WHICH THE
PEOPLE HAVE A RIGHT TO
HAVE ANSWERED
The question before the legislature at the present moment is not
who is going to build the Waterways road, or how the road is going
to be built. It is what is to be done with the money?
According to the arrangement under which the province went
into the agreement with the Waterways Company the province went
security for \$7,400,000. On this security bonds were sold. Subsequently came the royal commission, and with it cessation of
construction. By their failure to meet the interest on the bonds
Clarkes Waterways Company was eliminated as completely as
though it never existed.
Now comes Premier Sition's bill which proposes to abandon the
road and turn the money into the public treasury.
The question now is, why should that money be turned in to the
public treasury and why should that money be turned in to the
abandoned?
To this question the people have a right to an answer-

To this question the people have a right to an answer-

DOES THE JUNIOR MEMBER
REPRESENT EDMONTON?

The question was asked of the junior member for Edmonton last night at the public meeting, what was to be done with the money, and he failed to answer.

The junior member for Edmonton was elected on a policy which provided for construction of a road to the north. He now sees the government presenting a bill to divert the money raised for that purpose to other channels. When asked, he fails so make an explanation.

In the face of these circumstances, can the junior member elain.

In the face of these circumstances, can the junior member claim to represent Edmonton?

to represent Edmonton?

COTE OF ATHABASCA ON

THE REASONS WHY

If there ever was any reason to take seriously the objection raised against the construction of a road into thenorth country on the ground that the resources of the country are not sufficiently well known to justify the onthey, that objection was thoroughly squelched by the speech made by Mr. Cote, representative for Athabasca, in the legisfature yesterday.

Not an orator of the polished and plausible sort, but a plain man speaking a plain language, in simple words backed by volumes of authority taken from the blue books, the geological reports, the statements of experts such as Bell, Fraser, Hawkins, Neville and a dozen others, and clinched with excerpts from his own experience, Mr. Cote showed to the limit of conclusiveness that the north is not an unknown country, but one of which there are whole libraries of information at the command of the government or of anyone else who will take the trouble to read.

With speeches such as Mr. Cote's and with demonstrations such as that upon the market corner last night, it should be evident to the government that there are reasons why the road should be built and that the public are in favor of having ibuilt.

In the face of such evidence, it obviously is up to the government: to show its reasons why the road should not be built.

MIS-STATING THE

MIS-STATING THE

INDUATION
In double-column box-car letters the Journal yesterday morning announces that the "PLOARD OF TRADE FLAYS SIFTON."
As a matter of fact the board of trade did nothing of the kind. What the board of trade did was to pass a resolution to the effect that in its opinion it would be injurious to the interests of the city of Edmonton to abandon the construction of a railway to the north. The statement and the facts vary considerably, even for the Lournal

HOW ABOUT THE
TENANT'S FRANCHISE?
Throughout the years that have flown almost every municipal election has brought forth declarations from candidates that there should be a tenant's franchise law in Edmonton.
Year after year the city goes to the legislature with an application for amendments to the city charter. Every year the demand for a tenant's franchise is conspicuously left off.
This year is no exception. The city has at the present dime a charter amendment bill before the legislature, covering many pages, but there is no mention of the tenant's franchise.
The property qualifications says in effect that the man who does not become the owner of a piece of reality within the city is not entitled to be trusted with the franchise. This policy adopted in London, England, would give in some instances one man the right to speak for a half a million people. The proposition is manifestly absurd.

absurd. The property qualification is wrong in principle and in practise. The time has long gone by when it should have been abolished in Edmonton and the risht of chizenship recognized irrespective ϵ such archaic theories.

JUST PARAGRAPHS.

Having added a hyphen and another metaphor to its name the Calgary News is now coming out under new management with Jess Dorman at the helm as the Calgary News-Felegram. The title is all right, but if he had put jes' Dorman at the head it would have gone jes' the same.

It is evident that Mr. Gariepy does not intend to run for mayor.

With the approach of the election season the aldermanic candidate blossoms forth in all his glory like the sunflower on the spring-time prairie.

Politicians are advised to do their shopping early as there may be other maters to attend to later in the season.

The legislature now has three unfinished debates on its hands, the Waterways, Bramley Moore's natural resources resolution, and the Calgary University. That ought to hold them for a while,

It is a fact that a warm meeting can be held in a cold place

RATEPAYERS ASSN. CENSURES COUNCIL

Some Think Council's Proposed Disfranchisement of Non-Residents Not Right-

(By Our Own Reporter)
Strasheona, Nov. 29—At the firequiar meeting of the young, I
vigorous, Racepayers association
Stratheona, held dast evening, the
assembly without a constrary vote pact a resolution censuring the act
of the present council in distract
in meeting in recensuring ratepayers. The in
tion was not decreased in a grant of
the procession, but it was in
mentionally ordered as a grant order.
